FOR IMMEDIATE RELEASE

**Cohen & Steers Total Return Realty Fund, Inc. (RFI)
Declares December 2014 Quarterly and Capital Gain Distributions**

NEW YORK, NY, December 9, 2014—The Board of Directors of Cohen & Steers Total Return Realty Fund, Inc. (NYSE:RFI) (the “Fund”) declared its fourth quarter 2014 and special capital gain distributions, both payable December 31, 2014 to shareholders of record on December 23, 2014. The ex-dividend date for each distribution is December 19, 2014.

Quarterly Distribution Per Share	Long-Term Capital Gain Distribution Per Share
\$0.2400	\$0.2300

In December 2011, the Fund implemented a managed distribution policy in accordance with exemptive relief issued by the Securities and Exchange Commission. The managed distribution policy seeks to deliver the Fund’s long-term total return potential through regular quarterly distributions declared at a fixed rate per common share. The policy gives the Fund greater flexibility to realize long-term capital gains throughout the year and to distribute those gains on a regular quarterly basis to shareholders. The Board of Directors of the Fund may amend, terminate or suspend the managed distribution policy at any time, which could have an adverse effect on the market price of the Fund’s shares.

The Fund’s quarterly distributions may include long-term capital gains, short-term capital gains, net investment income and/or return of capital for federal income tax purposes. Return of capital includes distributions paid by the Fund in excess of its net investment income and net realized capital gains and such excess is distributed from the Fund’s assets. A return of capital is not taxable; rather, it reduces a shareholder’s tax basis in his or her shares of the Fund. In addition, distributions from the Fund’s investments in real estate investment trusts (REITs) may later be characterized as capital gains and/or a return of capital, depending on the character of the dividends reported to the Fund after year-end by REITs held by the Fund. The amount of quarterly distributions may vary depending on a number of factors, including changes in portfolio and market conditions.

At the time of each quarterly distribution, information will be posted to cohenandsteers.com and mailed to common shareholders in a concurrent notice. However, this information may change at the end of the year because the final tax characteristics of the Fund's distributions cannot be determined with certainty until after the end of the calendar year. Final tax characteristics of all of the Fund's distributions will be provided on Form 1099-DIV, which is mailed after the close of the calendar year.

The following table sets forth the estimated amounts of the current distribution and the cumulative distributions paid this fiscal year to date from the sources indicated. All amounts are expressed per common share.

DISTRIBUTION ESTIMATES		YEAR-TO-DATE (YTD) December 31, 2014*		
	December 2014			
Source	Per Share Amount	% of Current Distribution	Per Share Amount	% of 2014 Distributions
Net Investment Income	\$0.0719	15.30%	\$0.2628	20.22%
Net Realized Short-Term Capital Gains	\$0.0627	13.34%	\$0.1532	11.78%
Net Realized Long-Term Capital Gains	\$0.3354	71.36%	\$0.8840	68.00%
Return of Capital (or other Capital Source)	\$0.0000	0.00%	\$0.0000	0.00%
Total Current Distribution	\$0.4700	100.00%	\$1.3000	100.00%

You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's managed distribution policy. The amounts and sources of distributions reported in this Notice are only estimates, are likely to change over time, and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for accounting and tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The amounts and sources of distributions year-to-date may be subject to additional adjustments.

***THE FUND WILL SEND YOU A FORM 1099-DIV FOR THE CALENDAR YEAR THAT WILL TELL YOU HOW TO REPORT THESE DISTRIBUTIONS FOR FEDERAL INCOME TAX PURPOSES.**

The Fund's Year-to-date Cumulative Total Return for fiscal year 2014 (January 1, 2014 through November 30, 2014) is set forth below. Shareholders should take note of the relationship between the Year-to-date Cumulative Total Return with the Fund's Cumulative Distribution Rate for 2014. Moreover, the Fund's Average Annual Total Return for the five-year period ending November 30, 2014 is set forth below. Shareholders should also note the relationship between the Average Annual Total Return with the Fund's Current Annualized Distribution Rate for 2014. In addition, the performance and distribution rate information disclosed in the table below is based on the Fund's net asset value per share (NAV). The Fund's NAV is calculated as the total market value of all the securities and other assets held by the Fund minus the total liabilities, divided by the total number of shares outstanding. While NAV performance may be indicative of the Fund's investment performance, it does not measure the value of a shareholder's individual investment in the Fund. The value of a shareholder's investment in the Fund is determined by the Fund's market price, which is based on the supply and demand for the Fund's shares in the open market.

Fund Performance and Distribution Rate Information:

Year-to-date January 1, 2014 to November 30, 2014	
Year-to-date Cumulative Total Return ¹	25.44%
Cumulative Distribution Rate ²	9.05%
Five-year period ending November 30, 2014	
Average Annual Total Return ³	16.61%
Current Annualized Distribution Rate ⁴	6.68%

1. Year-to-date Cumulative Total Return is the percentage change in the Fund's NAV over the year-to-date time period including distributions paid and assuming reinvestment of those distributions.
2. Cumulative Distribution Rate for the Fund's current fiscal period (January 1, 2014 through November 30, 2014) measured on the dollar value of distributions in the year-to-date period as a percentage of the Fund's NAV as of November 30, 2014.
3. Average Annual Total Return represents the compound average of the Annual NAV Total Returns of the Fund for the five year period ending November 30, 2014. Annual NAV Total Return is the percentage change in the Fund's NAV over a year including distributions paid and assuming reinvestment of those distributions.
4. The Current Annualized Distribution Rate is the current fiscal period's distribution rate annualized as a percentage of the Fund's NAV as of November 30, 2014. The Current Annualized Distribution Rate does not include the long-term capital gain distribution of \$0.2300 per share. If this was included in the Current Annualized Distribution Rate the rate would be 13.08%.

Shareholders should not use the information provided in preparing their tax returns. Shareholders will receive a Form 1099-DIV for the calendar year indicating how to report Fund distributions for federal income tax purposes.
